

Stewart Cattle Co. & Guests Bull Sale

*February 28, 2013
Beautiful Plains Ag Complex
Neepawa, Manitoba*

Welcome to our 5th bull sale.

We would like to thank our past buyers for their support and trust in our genetics. We truly appreciate your confidence in our program and value your friendship.

New to the sale this year, is an offering of Purebred Angus replacement females. They are a solid set of heifers that reflect the type of progeny these bulls will produce. Again we are offering a group of Simm x Angus bulls, sired by WAGR Driver 706T and CNT Warcraft 31W.

Cattle prices are decent and the people that remain in the business will benefit from using top quality, sound genetics. As long as we continue to sell our feeder and market cattle by the pound, I think we need cattle that will feed well and perform.

The bulls we are offering, today, will sire calves that will perform and be easy to market.

Our entire offering has been on our herd health program; BVD, blackleg vaccinated plus ivomec'd. The Angus, Simm x Angus bulls and Purebred females are developed on a screening pellet ration, free choice hay, and minerals.

Please feel free to give me a call and we can discuss bulls that will suit your operation. Thank you to our repeat buyers, your confidence helps us to build better genetics to offer our variety of customers. We are looking forward to seeing you on sale day and welcome new faces on Feb. 28/13 at the Neepawa Ag-Plex.

Note: The 2 year old bulls and purebred females should be picked up on sale day or will be delivered right after the sale. We will take the yearling bulls' home, semen test, and deliver them after April 1/13, FREE OF CHARGE within the prairie provinces.

Join us for lunch @12:00 noon.

Sincerely,

Brent
